- low weight (420 g)
- operating pressure up to 400 bar max.
- adjustable Teflon packings
- connections available in M16x1,5 or 1/4" NPS
- all fluid contacted parts are stainless steel (1.4305)

WIWA 400 Automatic Spray Gun

Robust automatic spray gun which disengages by way of a return spring. For faster and more accurate operation, the gun can be equipped with an optional pneumatic assist.

The **WIWA 400** Automatic Spray Gun is equipped with a connection for fluid return and can be used with or without recirculation.

High Performance Airless Automatic Gun

- robust, reliable design
- service friendly
- ideal for water-base lacquers
- use of several guns in series possible
- key slot for improved mounting adjustment
- above average durability due to tungsten carbide balls and valve seats
- short needle travel provides faster closing
- separate paint and pressure sections to prevent clogging and jamming of the spring - important when working with two-component materials
- large fluid passages for processing of high viscosity and coarsely pigmented materials.
- replacement of worn parts takes only a few minutes
